LeetCode- Pradeep_26

TECHNICAL SKILLS

- C, Java
- MySQL
- DSA
- Computer Networks
- HTML, CSS, JS
- ReactJS
- MongoDB

TOOLS

- Figma
- Git / Github

SOFT SKILLS

- Time Management
- Teamwork
- Problem-solving

LANGUAGES

- English (R - W - S)
- Tamil (R - W - S)

CAREER OBJECTIVE

An Aspiring student with mutlitasking capabilities in the domain of information technology to create effective engineering solutions for the better future. Passion to work on challenging role in a dynamic stable organisation to utilize my technical and analytical skills for the growth of the organisation as well as to enhance my knowledge .

QUALIFICATION

Bannari Amman Institute Of Technology - Sathyamangalam

B.Tech Artificial Intelligence and Data Science — 2023-2027

7.39 CGPA upto 6 Semester

Sri Vinayaga Matric Hr Sec School - Namakkal

HSC - 87% — 2022-2023

PROJECTS

1. **Skillbridge - FrontEnd [React]**

   Developed the frontend of the Skillbridge website using React.js, implementing key features such as login/signup, home, courses, about us, and pricing pages. Ensured a responsive design and an interactive user experience in alignment with the UI/UX prototype.

2. **Cropio - FullStack [MERN]**

   A full-stack agricultural platform connecting farmers and vendors to enhance transparency and efficiency. It provides ML-based disease and yield prediction, market sustainability insights, cultivation guidance, and real-time market updates, enabling smarter decision-making and improved agricultural trade.

   Key Points:

   1. ML-Based Predictions: Crop disease detection, yield forecasting using soil and environmental data, and market sustainability analysis.
   2. Smart Cultivation & Market Intelligence: AI-driven cultivation recommendations with real-time market news, pricing trends, and demand forecasting.
   3. Farmer & Vendor Dashboard: Direct communication, crop listing, inventory management, and logistics coordination.

AREAS OF INTEREST

- UI/UX Designing
- Web-Development
- Machine Learning

HOBBIES

- Playing badminton
- Watching Ted-talks
- Listening Musics
- Reading books

3. Hospital Management System - FullStack[MERN]

Developed a web-based Hospital Management System with role-based access for Admin, Doctor, and Patient. Patients can book appointments based on preferred date and time. Doctors can view patient records, lab reports, prescriptions, and appointment schedules. Admin manages doctor details and monitors active doctors, patient admissions, and overall hospital visits.

4. Digital Resume - FrontEnd [React]

Developed a digital resume using React, creating reusable components and ensuring a responsive design for seamless access across devices. Styled the interface with CSS and integrated external libraries to enhance functionality and user experience. Focused on clean, organized code to ensure scalability and ease of maintenance.

CERTIFICATIONS

NPTEL - Responsible & Safe AI Systems — Jul - Oct 2025

SCALER - React Js Certification

KAGGLE - Introduction To Machine Learning

CISCO - Introduction to Cybersecurity

HACKERRANK - Java Basics Certification

DECLARATION

I PRADEEP S declare that all the details provided are true to the best of my knowledge.
